Biomimicry? - Biomimetic
Architecture - Biomimetics or
biomimicry is the imitation of the
models, systems, and elements of
nature for the purpose of solving
complex human problems. The
terms "biomimetics" and
"biomimicry" derive from
Ancient Greek: βίος (bios),
life, and μίμησις (mimēsis),
imitation, from μέμηται (mēmētai)
(mēmētai), to imitate, from
μῖμος (mimos), actor. Tue,

Bionics is the application of
biological methods and systems
found in nature to the study and
design of engineering systems
and modern technology.. The
word bionic was coined by Jack
E. Steele in 1958, possibly
originating from the technical

term bion (pronounced BEE-on;
from Ancient Greek: βίος (bios),
meaning 'unit of life' and the
suffix -ic ... Tue, 17 Apr 2018
